

PROPOSED AMENDMENTS TO SENATE AND HOUSE RULES 333

1 **SECTION 1. AMENDMENT.** Senate Rule 333 is amended as follows:

2 **333. AMEND OR REREFER ON SECOND READING.** On the second reading of
3 every bill or resolution, any amendment other than amendment of a measure reported from a
4 conference committee or a measure on the calendar as the result of a motion to concur or not
5 concur in amendments by the House may be received and the bill or resolution may be
6 rereferred at any time before its final passage. Upon request of a member, a floor amendment
7 must be submitted in writing and distributed to each member.

8 **SECTION 2. AMENDMENT.** House Rule 333 is amended as follows:

9 **333. AMEND OR REREFER FROM THE FLOOR.** No amendment to a bill or
10 resolution, other than one to amend the title, may be considered on second reading without
11 unanimous consent of the House, nor may any floor amendment be considered on sixth order
12 without unanimous consent of the House, but all bills and resolutions may be rereferred to
13 committee at any time before their passage. No amendment of a measure reported from a
14 conference committee nor of a measure on the calendar as the result of a motion to concur or
15 not concur in amendments by the Senate may be made on second reading.

NOTE: This proposed rules amendment is in response to a suggestion that a measure on the calendar for final passage as the result of a motion to concur should be treated the same as a measure on the calendar as the result of a conference committee report, i.e., no floor amendment should be allowed.
